Read [www.WOSO-food.jaaaa.net](http://www.WOSO-food.jaaaa.net) \* "Auf keinen Fall darf das Volk Tesla's Energy.Generator in die Hände bekommen!" sagte der deutsche Außenminister auf einem geheimen Treffen von deepstate-Insidern.

Het leven alleen fijne mensen op deze wereld. Er is nog nooit een oorlog geweest. Er is nog nooit een Hitler geweest. Er is ook geen ex-insider, Ronald Bernard, die op internet- videos [www.DVM-tv.com](http://www.DVM-tv.com) vertelt, hoe de WW2-makers, de deepstate-bankers, in hun war-headquarter in BIS, Basel hebben gezeten en gelachen, als de volkeren, geleid door hun TrojanHorses, tegen elkaar gingen vechten in WW2, Hitler het TrojanHorse van de bankers in Duitsland, Roosevelt het TrojanHorse van de bankers in USA. Alles complot-theorie.

WW2 is nooit geweest. WW3 is fantasie. Deep state van de bankers, de makers van WW3, is fantasie, bestaat niet.

With WorldSolutions Food, Energy, Honesty-Test TT in our hands, the bankers cannot win their extinction-war WW3 against worldsociety

## Underground-threat in Europe

Secrete deep-state hightech tunnelsystem, digged for warfare and crime support  
The discoveries of the US-Army in USA allow conclusions on the underground-threat, present in Europe

Tunnel-system of deep state under USA, with hightech-facilities, with mach1-metro for transportation.  
Troops can appear out of nothing and attack, Many bunkers with children for special deepstate-activities.  
Tunnels discovered and cleaned by US-Army, Under Europe a same tunnel-system, Security-threat !

The attackers have been stocking the same underground bases with massive amounts of food and supplies.  
Due reason: The UNO-plan of the attacking Islamic-group to surprise, after the attack-phase with  
"various" new, a moving attack-phase, where we are doing here (banned...) poison or flame,  
while the attacks arrive in the underground pass. After our death they escape and take over the country.  
The discoveries of the US Army in USA allow conclusions on the underground threat, present in Europe  
Some top of the Islamic group, mentioned and acted in the Truth.Tour TT, will confirm the findings.

# **Killer-dragon**

**with millions of heads: his killer-tricks**

## **Covid19- 'Tests'**

**Why strange tests on strong young people, students, for whom the Covid19-parasite (a bacteria, no virus) never has been a danger?**

**Unanswered question are a hint,  
that something is wrong.**

**[www.Qx8.jaaaa.net](http://www.Qx8.jaaaa.net)**

Test-Swabs of soft cotton and test-swabs of hard breakable artificial fibres, eagle-swabs - *the difference in pictures*

### **A new trick? A new trap?**

Between the white breakable needles of the eagle swabs tiny moving black snakes. Parasites? Worms? To be seen only under a high resolution microscope. Tested person don't get any information about that. Why not?

**After the vaccination-trap** with AstraSeneca-mRNA-vaccines, stopping now: too many young people died directly after the 'shot' into the arm – although many deaths were hidden, still too many deaths got known in the country.

**Now the Covid19-test-trap**, infection with 1000s of white needle-tops, digging slowly into the body in. And with 1000s of black micro-parasites. Why that? What is the aim of it? New kind of slow motion killing? A new killer-weapon of the killer-dragon, sophisticated, made for use against everyone, also against students and children. Made for GENOCIDE.

While the mRNA-”vaccines“ of AstraZeneca and Pfizer and Jansen and others are made to kill massively after 4 to 6 month by auto-immune disease, visibly not doing anything until then – only then they are a good trap – they have killed already many people directly after the “shot into the arm” . Also young people, never dying from Corona, die. Absurd !

Now people are getting suspicious. They **shy away** from the imperfect trap. They don't go in.

So the killer-dragon with millions of heads needs another killer-trick and has found it in Covid19-’Tests’. For **access to** football games, vacation travels, school lessons and physical lessons of students in universities the dragon asks a negative Covid19-test. This test likes to be less invasive. A long stick with a white swab at the top deep into the nose and out and then the decision: any Corona-”viruses” caught?

People believe that the “out” is the important thing. If not warned by a paper like this one, they don't get, that an “in” is taking place. The tricky swab is a transport means to get something in, Unseen !!!

Our eyes see only macro structures, no micro- and no nano-structures. The new trick makes use of our blindness in relation to micro-structures and brings in micro-needle-tops, broken away from the hard artificial white fibres, and micro-parasites, moving fibre-worms. Most likely killer-worms, if you think about the **sender**: the killer dragon with masked presence in our power organs. Now the proof: the photos, exposing the enemy within.

**What is this ?**

## What is that ?

Artificial fibre swab, Between the white fibres some moving black “fibres”

many needle-tops, broken off, digging into meat in

A sophisticated genocide-weapon of the killer-dragon  
with millions of heads for 1000 shots per use into the noses  
of children, students, adults. Still anything unclear, people?
