Why-Questions, regarding MH17

www.reconstructionMH17crash.jaaaa.net

Why did 2 MIGs appear behind the MH17, shooting on the plane (several eye witnesses in videos: (fact)) and disappeared short before the arrival and explosion of the BUK-rocket ? One rocket-hit is enough to let a plane crash. One MiG-attack is enough also. Therefore two different attacks to reach the same end don't make sense. What is behind this dubble-attack? What is the solution of this enigma?

Answer: the MIGs tried controlled demolition of the MH17, what is not possible with a rocket. To add the rocket-attack with a Russian BUK was necessary to blame Russia and to begin with prepared hard measures against Russia. The attacking party tried to escalate the local conflict at the Russian border via false flag attack.

MH17 flew above the region of Ukraine, controlled by pro-Russia-rebels. That had to be, in order to blame Russia for shooting the plane down. But the MH17 should not crash there. It should crash behind the near frontier on ground controlled by Ukraine, from where the BUK-rocket was started (several eye witnesses in videos: (fact) , Ukraine an ally of the attacker), to be able to control all steps following: find and hide the 2 black boxes of the plane with telltale information on it and to let disappear the dead victims, not a single of the 200 Netherlanders under them, who had bordered in Schipol airport, as fast as possible in body bags to hide the arrangement of the whole from prying eyes, and to be able to lie, that 200 Netherlanders together with 100 others had been shot down and killed.

But something went wrong. Just the opposite happened: the plane crashed between the pro-Russia-rebels. The MIGs did not succeed to fulfill their task.

Or well, but the BUK-rocket exploded on the wrong side of the plane. The explosion pressure redirected the nose of the plane in direction rebel region. There the plane hit the ground. According to the made plans it should hit the ground some 20 km more west, in a region controlled by Ukraine, in a region, where one crew was still waiting to collect the Black Boxes of the MH17 with the fly history on it as quick as possible, and other crews with further tasks. One big task was to let disappear as quick as possible bloodless dead bodies of Asian type,

partly in winterclothing (in summer time, 17,7.2014) (fact), partly naked with traces of torture (fact), Chinese children with smoothly split heads (fact), wounds, which never happen in plane crashes, wounds, which can be made only by ax blows, happening only in strange circles, slaughtering children. In black child-trafficking-groups!

But now, because of the unsuccessful MiG-operation, the bodies were lying 3 days open on the ground, many people in the region could take notice of these astonishing facts. The facts were recorded. We have them. ***Facts*** are important. ***Now we have to explain them in such a way, that no important question remains without answer.*** Short: we have to explain the findings fully. Normal citizens of today, still without school knowledge of special brain diseases, don't have the tools to explain all that. Specialized scientists in this field have.

Something went wrong. And now all signs of strange happenings **before** the crash came under the eyes of inhabitants of the region, streaming together at the crash site, making photos and videos of surprising findings. No sea of fresh blood as usual and natural after a crash of a plane, but bloodless bodies (fact). Why, why, why? They must have been dead already long. Why already long dead? Who or what had killed them? And so many all together! Why, why, why? The people could see, that something was deeply wrong. But they had not enough information to make the puzzle complete. So they gathered puzzle pieces 1. in their memory and 2. as photos and 3. as videos. Pieces for us with more information to put all together.

We know that US-President Obama blamed Russia to be behind the crash (fact). We know that the EU-Commission with Juncker and Timmermans blamed Russia hard to be behind the crash, **using lies** (fact). Everyone has heard and seen it, Timmermans as voice of the EU-commission accusing, hammering with his finger on the table to underline the accusations. We know, that Obama, Juncker and Timmermans are Trojan Horses of RoRo, and many others in the EU-Commission and on high power posts in Europe.

We know of lot of manipulations of these people, too many to list them here all. We know of their habit to use false flag operations again and again to hide the identity of the attacker before the eyes of the world. Out of all our findings we can conclude, that RoRo, the powergroup, led by Rothschild-Rockefeller, the rover-billionaires with bad reputation, has organized the crash in order to escalate a local conflict in Ukraine to a big conflict with Russia. That was the plan behind. But because of the ***mistake of the MiG-pilots*** – they could not turn the MH17 sufficiently, ***big proofs of an extremely crazy game came in our hands, blaming RoRo and its TrojanHorses***, Obama, Timmermans, Junckers and many others, hinting directly on hidden and very strange qualities of RoRo-people. Unmasking findings!

The world can learn out of that and take measures to avoid repetitions.

RoRo itself had to make steps back in this special case because of the unsuccessful MiG-mission and had to bury this special plan to go to war with Russia. Restlessly however, RoRo is attacking the nations on other fields. Now, nearly 2020, nearly 6 years later, attack with dangerous toxic 5G-radiation, corrupting our DNA and immune-system. In a kind of panic they try to sell us this system for mass-murder as faster mobile internet, with ridiculous arguments, with lies, producing lots of contradictions. And with a **“power coup” from the EU-commission**, commanding to introduce the massmurder-system in all European countries! The convicted MH17-murderers, command us to install their massmurder-weapons on our roofs, so that they

can kill us by pressing a button! Crazy, crazy, crazy!

They don't want to kill us in a second. No, the system is not designed for killing fast. Then they cannot enjoy it enough. It's designed to kill slowly. After destruction of our immunesystem we are defenseless against cancer and diseases of all kinds. Then it takes about 5 month to die with incredible pain in steps. That's, what they enjoy most. **The EU-Commision wants to slaughter the nations of Europe in slow motion!** Did they get crazy? Or have they been crazy all the time? But not visible for people?

On 5. December 2019 US-President Trump took the word and declared: "I will never accept this 5G-system, which is totally unsafe. The 5th Generation, 5G, of mobile Internet must be totally safe, proven save, safety acknowledged by all experts, before introduction."

What would Hillary Clinton have done as US-President in place of Trump? As a Rothschild person, as TrojanHorse of RoRo, she would have said: "Yes, this wonderful 5G-Internet is safe. We need it", and the way would have been free to slaughter the US-nation deceitfully via damaging the immune-system by pulst 5G-radiation, followed by cancer of young and old, all dying together in slow motion, within some month (Prof. Pall, USA, on the 5G-summit, october 2019). And the EU-commission would have been supported in its trial to let die the European nations in the same way. The old dream of RoRo of 'depopulation' would be reality. RoRo, the ruler of the World, RoRo-West together with RoRo-Ost, a Chinees group, the producers of this toxic 5G-system, descendents of the White Huns, which split off the Black Huns at the Kaukasus and travelled in direction China, some 3000 years ago, known there as Hiong-nu, while the Black Huns stayed in the Kaukasus-region, founded the kingdom Khasaria and travelled later west towards Europe. The original group, coming uit the wide plains of Asia, must have already been carrier of the gene defect, causing ppp-disease, causing the lustmurderer-disease, lurking in persons, looking normal. This disease gave the group an advantage in normal societies with people, trusting each other, advantage by robbing and hidden killing (they use to hide their victims behind fake accidents, fake suicides ...), so that the group got rich and could grow in number. That has happened throughout centuries, Explosive multiplication within the last 120 years from 1% to 4% of the populations. If they are alone on the globe, after 100 genocides, they will attack each other: the disease does not stop, they need victims. The LUSTmurderer-advantage turns in disadvantage, when we act now. We have the means!

The members of the RoRo-community have this very special property, hidden in a corner of their brains. The top people possess well functioning brains, but nevertheless with a very small hereditarily sick region in a corner of these brains, resulting in additional and normally hidden qualities, coming fully out only in their own closed circles behind shut doors. Then they show their "person 2" .

These qualities, resulting from the said hereditary brain defect in a very small corner of their brains, are an important puzzle stone of the whole picture. In the MH17-story as well as in other stories of killing and death, producing endigmas, producing questions. Maliciously manipulating groups of powerful people on the background the puzzle stones to make the story complete!

If you don't understand the behaviour of a person, in particular a conciousless behavior, then look for an explanation in this direction: LUSTdamagemaker and LUSTmurderer. This brain-

disease comes with a list of special symptoms, partially congruent with those of children, playing pranks, f.i. the LUST-cries after hitting a victim in an attack. *In harmless* attacks of children, in harmful attacks of sick adult people. LUST-cries! Huge lustwaves, resulting in cries. Or, if suppressed, in twitching mouth-edges. In normal people /children the game attacks are braked by a special brake-coprogram. **In sick people this brake-program is missing, corrupt, not working, while the attack-program is running full power all their life**, Conciously they go on damaging, if they can, if no punishment is threatening. Killing a person is mentally no problem for them. They enjoy it. It's a prank to this person. That is absolute craziness, ppp-disorder, but well lurking in many RoRo-people, looking normal. A big danger!

The doctor, looking normal, but with ppp-disorder, tries to make your illness worse. That illustrates the danger. The whole school medicine with wanted wrong treatment of cancer, is a giant product of ppp-disorder. 3 out of 4 citizens don't see it and trust the sick doctors. We can master the disease ppp-disorder in step 1 by checking suspect doctors. One part of them shows the typical sick grin of lustmurderers openly, knowing, that people can't interpret it. Checking suspects via questions at the Memory-Reader-Test! www.memory-reader.jaaaa.net. Their memory cannot lie.

An under-surface-killer-game, showing the degree of subversive rulership, already reached.

After this theoretical part back to MH17.

MH17 is a dreadful lustmurderer-killergame. And there is the possibility of repetition. ***Every passenger in a plane can become victim. No defense possible, when the plane is already in the air. You must defend yourself earlier!***

The plane of Malaysia-Airlines MH17 started on 17.7.2014 (14=2x7) from Schipol Airport, Amsterdam, The Netherlands, with about 200 people from Netherland and 300 people all together. The plane was selected by Shaman-priests of RoRo, believing in “holy numbers 7 and 17”. Occultisme! On board was an undercover RoRo-group with narcotic agents. They stunned all passangers, took the plane over, flew to an unknown place (but known to insiders, memory-reader!) with runway, landed. The stunned passengers were unloaded, the dead passengers from flight MH370, abducted in march, 4 month earlier, most of them Chinees people, partly in clothes, partly naked and with traces of torture, were loaded. Then the plane started again, flying in direction Ost-Ukraine (the last distance flown by autopilote), where the 2 observed MiGs and the BUK-rocket were waiting.

Then the MiGs arrived and tried to turn the nose of MH17, without success, disappeared, the BUK-rocket came, exploded, MH17 crashed on rebel-ground, and the rest is known, besides the fate of the original MH17-passangers. Most probably they were transported to 300 of the many undercover-lustmurderer-groups of RoRo, there tortured and killed as painful as possible, their cries of pain echoed by the cries of lust of the sick assembly. People with the gene defect. People with the killer gene and therefore wrong connections in a corner of their brains.

Lustmurderers find it a pity to kill 300 persons in one blow, whereas each of them can serve one of 300 groups of them to deliver hours of greatest fun and crying lust, while torturing them with experience the most painful way, not letting them die too soon. Cries of pain, echoed by cries of lust of the lustmurderer-community. From lustmurderers, speaking to each other and sometimes a disguised scientist between, we know, that high running lustwaves inside of them continue to flow until 2 days after each event, decreasing in intensity..

Maybe that a lustmurderer-billionair of RoRo as George Sorros (see photos of his arrest, tortured dead children and living children in boxes found in his house: convicted lustmurderer! (fact)), with all the possibilities of big money, was inspired by a normal plane crash to think “What a pity! Let us abduct a plane, simulate a crash, and use the passengers for our feasts of joy and lust! But how to land the plane unseen? We have to build a runway on a small uninhabited island and organize the transport of the passengers from there to our groups using

the same means, which we use since decennia to transport silently caught children to our undercover-feast-groups in our undercover-feast places". Then he discussed the plan in a group of billionaires. Together they realized the plan, found an island, built a runway. Then they organized a first abduction, the abduction of the MH370. The plane vanished tracelessly. In spite of the longest and most expensive search in history nothing was found back from the plane. The passengers were transported to the feastplaces, tortured and killed as desired. Clearly the RoRo-group cannot repeat this in short, but only in long intervalls. However, the large RoRo-net of feast-groups needed more people in shorter intervalls. Big plane crashes happen in shorter intervalls than plane disappearings. Part 2 of the plan of the billionaires with infinite possibilities was to replace living passengers with dead passengers before the crash, using the living passengers then as lust-objects in their feast-groups. So the steps had to be:

1. abduct a big plane, stun the passengers, fly the plane to the island, land it, unload the narcoticized passengers, load in dead passengers, dead torture victims from MH370, which had been transported back to the island, laying and waiting there in conservatives (fact). (even the type of consevative is known: formaldehyd (fact)), start the plane in direction wanted crash place (here Ost-Ukraine, frontier line between pro-Russia-rebels and Ukrainian government), shut the plane down above a place 1 (here rebel zone) in such a way, that it hits the ground and crashes on a wanted place 2 (here Ukraine government zone), where everything is already prepared to let disappear all signs and proofs of the cheating (collect the black boxes, hide the "wrong" dead bodies in body bags). Transport the prey, some hundred living passengers (here passengers from MH17) via the standing transport lines to the standing feast-places. Transport later the tortured dead bodies (of MH17) back to the load- and unload place on the island. Let them wait in formaldehyd there for the next killer-game. For the next RoRo-coup.

That can go on endlessly, if everything runs smoothly, without big faults. And if not too much people get suspicious. If only few, only some “complot-thinkers”, that does not matter. Trained RoRo-people have the means to make them silent. You imagine already, which means they use.

Everybody of us, stepping in an airplane to reach his (holiday- or business-) destination, from now on can end up in the new RoRo-trap as torture victim, serving as lustobject for the big RoRo-lustmurderer-group, 300 million people worldwide with the very small sick corner in their brains, making them lustmurderers. 4% of the world population.

We are 96%, but slow in understanding, slow in communication, slow in counterattacks against RoRo-attacks on many fields, if they are camouflied. Naturally they are camouflied! Our communication means are infiltrated and taken over by RoRo, those persons looking normal but with the said corner defect. Our newspapers are taken over. Our TV taken over or at least controlled by RoRo. Our social media controlled by RoRo, some even made by RoRo (RoRo-part of CIA), using tax-money (Facebook). (FB-history: FB was given then in the hands of Zuckerberg, a Rockefeller, a grandson of David Rockefeller, earlier king of the Hun-nation, source of the decomposition-policy of RoRo against Europe via Moslim-immigration). We tolerate it. We have the means to kick the RoRo-organisation out (Memory Reader), but we don't use these means.

We react slowly and insufficiently against the new 5G-attack, the mass-murder instrument to damage DNA and immunesystem with pulst radiation, with high-energy laser-shots from nearby, sold as sugar bread faster internet (faster is a lie, see TU Eindhoven), intended use not only against Europeans, but against the Moslim-immigrants also. Of course they have to die also, after having fulfilled their task: weakening of Europe.

We react slowly and insufficiently on the toxification of air (with sprayed chemicals, chemtrails), water, ground.

We react slowly and insufficiently on the toxification of our food. Most people eat sickening factory food, far away from being natural and in the long run good for our body. Food factories exceed known temperature-limits during fabrication, producing degenerating food. RoRo as owner of GMO-Companies as Monsanto and of food-factories uses bad food as weapon. Trusting people do't reject it, but go into the trap, buy it, eat it and get sick and die early.

We react slowly and insufficiently on the occupation of the massmedia by RoRo, now in the hands of RoRo an instrument of desinformation, brain washing, big lies, usally silencing unwanted worldnews to death (f.i arrest of Bush jun, see www.a.jaaaa.net, photo of Bush in jail, his confession to have organized the demolition of the Twin Towers himself, 9/11, as Trojan Horse of RoRo. f.i arrest of George Sorros, f.i. John.F. Kennedy junior, son of JFK, alive -- finally positive news also). A counterattack to get our media fully back, by kicking out RoRo-people with the said very small sick corner in their brains, seems far away.

We react slowly and insufficiently on the toxification of our most important defense organ, the police, by TrojanHorses of RoRo, which intruded in the tops, paralysing the police body to take the right steps against big crime, to take the right steps (research with Memory-Reader) against murder and massmurder, so as the MH17-massmurder, often taking fake steps (f.i. against the Audi-gang) to demonstrate activity, whereas their steps to weaken the position of citizens, are

well effective, citizens now without weapons against police with pistols and (new) tasers, now police enforced by soldiers, preparing dictatorship. Citizens of USA and Switzerland have weapons. We should have weapons also. Modern and really effective weapons!

We react slowly and insufficiently on the toxification of politics by TrojanHorses of RoRo., taking consciously strangling decisions. F.i. setting in power the treaty of Lissabon, begin 2020. in less than a month, setting the country under European Law in place of national Law, giving the power to the MH17-lustmurderers of the EU-Commission in Brüssel. People will be surprised. They were informed poorly and don't know the content of the Lissabon-Treaty. If they dare to protest after getting to know that their role was minimized again to determine things of their lives, then the new part of the police, the soldier part, will be there to teach them to be silent. The treaty of Lissabon has been written by TrojanHorses and prewritten by the planning center BIS of RoRo in Basel, using ridiculous tricks. But they will try to put all that through, gaming people, that they are. They have made use of the weakness of a sleeping giant. However, they cannot be sure, that the 96%-giant keeps sleeping. If the giant comes to know, that he has to deal with a lustmurderer-opponent, with a 4%-group of gaming people with normal brains with the exception of the said very small corner, being a little bit abnormal, playing f.i. horribel MH370-MH17-killer-games, then the giant could wake up fully and act.

Therefore we scientists find it important to describe the MH17-story, based on facts, facts, facts, describe it fully, using scientific standards for research and conclusion to tell the true story of a 96% plus 4%-society, the 96%-party being weak and getting stronger, the 4%-party being strong and getting weaker. Getting weaker because of a culminating brain disease, playing less brilliant, making severe faults.

In the case of MH17, 5 years ago, convicted MH17-murderers, clearly TrojanHorses of RoRo, are still sitting on highest powerposts in nations of Europe and EU-Commission. Incomprehensible! Showing the weakness of the still sleeping giant.

In the case of MH17, 5 years ago, RoRo could repair the biggest fault, the 2 Black Boxes in the hands of others, by using force to get them back. First the boxes got in the hands of the rebels (fact), with information of a stop between on them. The rebels didn't read it out, but gave the boxes to a group of militairs from Malaisia, arriving (fact). The militairs did not read the boxes out themselves but wanted to read them out together with the JIT-commission (fact) in NL, Rotterdam. They trusted them. **Never trust people with the said corner defect!** Against the protest of the militairs JIT took the boxes away and excluded the Malaisiers, the owners of plane and boxes, from reading out the treacherous information on them. Proof of the big crime, that should stay hidden, but can be reconstructed out of the facts, seen on 2 videos of independent investigators, and out of background knowledge of science of the said very small sick corner in the brains of RoRo-people, based on longtime observations and longtime experiments with many of these people, with groups of these people, often in eye to eye contact with them, studying the faces, studying the grin, studying the sucking eyes, sucking in damage information, studying the twitching lips, telling stories of arriving lustwaves and their suppression, studying the reflection of their happiness, when touching the theme RoRo-feast and emotions. Happiness as result of damage and death. Happiness as result of wrong connections in their brains. Are we bound to take their decisions serious? Craziess the source! Hightreason the background!

A big crime, the full reconstruction presented here.

If RoRo does not make too many faults, it can go on with airplane-killer-gaming, letting disappear or crash planes, using the living prey as feed for its numerous feast-groups, delivering the tortured dead bodies back to the load-unload place at the runway. Perhaps in the future more hidden runways are built to satisfy the demand. Perhaps they are already buiding a second : delivering the tortured dead prey back to the load-unload place at one of the runways.

From now on everyone, each family, flying to a holiday destination, each businessman, entering a plane to meet a businesspartner in USA or China in person, can end up in a torture circle of the big RoRo-community, the normal looking people with the said corner defect, and gets second the honor to fill with his dead body a seat in a plane that will crash.

There is a second big 'if', and we can make that 'if' true :

If enough citizens study the Memory-Reader-Test of Prof. Rykken and recognize its immens possibilities and its genius and its simplicity and put through, that it is used to test suspect persons and kick out each Police Officer, who still dares to suppress the use of the test,

and put through that each person, wanting to hold an important office, is tested, asking the testperson simple questions

(.... Do you want to serve the people of the country?)

.... Are you a Trojan Horse of another entity?),

observing the yes-no-answers of the memory,

then the spook of gaming lustmurderers, catching victims,

torturing them grinning and laughing to death,

is immedeately over.

The test recognizes the disease. You have only to ask ... "Are you a lustmurderer?" and observe the answer of the memory, yes or no. So simple. The memory cannot lie. A certain region of the brain has to manipulate the truth of the memory, in order to produce a lie.

When the answer is "Yes", a high peak in the EEG, then you can

continue to ask "Is person A a member of your lustmurderer-group?"

and observe the answer: yes or no or I don't know.

“Is person B a member of your lustmurderer-group?” and observe the answer of the memory: yes or no or I don't know. So simple!

In short: Asking and observing the memory, using EEG and laptop, that is the solution. Big crime will disappear.

Killer-games of lustmurderers don't have a chance in the bright light of the Memory-Reader.

Mankind will make a step in its cultural evolution to a higher level: all top people in power offices of proven integrity, serving the people.

Using the test, the fate of the MH17-passengers, 200 people from Netherland between them, will be very soon known.

Asking the memory of some knowledge carriers,

f.i. asking MP Rutte, openly called a liar, wherever he appears in public, haven't been able to hide the terrifying facts well enough,

f.i. asking the chief of the Nationale Politie, Akerboom,

suppressing the use of the memory-reader in the police corps,

we get to know, wat we want to know

and what is our legal right to know.

We should not let stop us to put our legal rights through by a corrupt group, suspect Trojan Horses of RoRo.

In the Netherlands with 17 million inhabitants,

16.3 million citizens and 0.7 million RoRo-people,

we, the majority, have the power to put normality through.
