

We want to know why ... You too?

We want to hear the answer from Rutte, Grapperhaus and police chief Van Essen, under TT control

We want to know why those who were pricked were not tested beforehand for pre-existing immunity. Isn't that strange? Because vaccination is completely pointless after silent contact with Covid19 and natural immunity. What's more, vax is then dangerous. Dangerous complications can arise from allergies to admixtures in the vaccines. Even deaths have been known. And what was all concealed? So why all these pricks without testing beforehand? A trap? **Isn't it about vaccine protection?**

Is it something completely different that should not be revealed too early?

Dr. Fauci, a main character in the Corona theater, was arrested in USA on June 1. 2021. He is now in prison in Gitmo and has confessed that the trik-vaccination puts a time bomb in the body, which will cause, after 6 months, a slow and painful death. Depopulation the goal. genocide. The attacker group, only 2%, only 140 million on the planet, the Huns, led by the bankers, the billionaires, want the planet for themselves. With around 300 million slaves out of the 7 billion stupid human-animals (so they are talking in their secret circles), who are easily lured into the vaccination trap, they want to move on. Until now they succeeded for 50%. 50% vaxed with time bombs. Dr, Fauci is the best witness! His confession is the best proof.

[NL](#) .. [DE](#) .. [GB](#)

By disease the attackers are conscienceless. They prepared the worst doomsday scenario for us. So there's more to come. An artificially made famine, withdrawal of all energy, radio and TV and internet dead, and, after fully rolled-out 5G, suddenly at night all homes set in fire, via 5G laser beams through the windows. The majority of the human-animals did not gather information over 5G, did not ask meaningful questions. They accepted. They don't know that 5G is only beautiful in advertising, not in reality. They don't know that in heavy rain 5G breaks down completely. So it is worthless. This laser-5G is designd only to shoot from nearby the house in fire.. Only few citizens notice irregularities. Those few have no far reaching voice. In fact, the attackers have the media monopoly and the gullible humans can manipulate the mass of the human-animals how they want it. Or they *had* this monopoly. Because now we have invented BIG. Our Bicycle Groups, active throughout Europe, inform citizens through flyers on cars and bicycles, in the streets around the police stations, around the town

halls, around the supermarkets and other frequently visited places. Join! We work with volunteers. Legally placing flyers can be done fast, cannot be stopped by the attackers and is highly effective, reaching many citizens, now without true information.

Citizens see the flyers on many cars, read them, and talk about them together.

If we are quick, and still more volunteers join in, we can save many lives. (Contact a.o. via defensenet@protonmail.com). For the attackers must have medicaments, which protect them against the coming deadly and contagious time bomb disease. We can get that medicaments by grabbing a few leaders of the attacking group via integer policeman and ask them on the Truth-Test TT yes-no questions. Their brains answer always, and always correctly. See www.TT.jaaaa.net.

We want Rutte, Grapperhaus and Van Essen, all three separately, to answer the why question, in writing, to be published in all newspapers, and orally before TV cameras, under TT control. If they refuse to be tested, they are fired and have to face a really honest judge (no puppet judge, no more silly games). They are accused of murder, mass murder and attempted genocide. Not small sins, we think. So we react clearly. Many police officers /COPs are already on our side, protecting us from assassination attacks from behind. See appendix, pages 3 and 4. The criminal COPs and sick-criminal riot police, who are still a danger, must be disarmed. We are working on this, together with integer police and integer riot police, who see it as their task to protect us citizens. If deep state loses the police power stolen by infiltration, if it has to give it back to us, the citizens, then deep state has quickly lost the war. That is why good cooperation with the police is so important for us. That is a spearhead of BiG.

We have to be quick, get them caught and interrogated before they can disappear into their prepared retreat area, big bunkers, filled to the top with food and drugs for months. The attackers want to dodge there, when large numbers of human-animals, sickened by the jab, have noticed that they have been smeared, and come now to attack them. Then they want to be gone. After the unwanted human-animals are dead, killed by the time bomb disease, they intend to come back and take over the planet. To disappear and wait, that is their strategy for later. Now they still go on lying, 200% lies!

However, does this plan work? The attackers have a sick weak side. When the sick child corner in their heads is active, they use to make big mistakes.

The world is beautiful as a paradise, on the one side, a, and has a few negative traits, b, on the other side. The source of many b-phenomena is a defect gene in the gene pool of mankind, creating a sick group with hereditary gene-defect and hereditary brain disease, an invisible sick brain corner, driving the hit people to play bad pranks with their fellow citizens It's quite a large group, estimated about 150 million on the planet, 2% of all. But invisible. They seem normal. They are not recognized as sick.

The gene defect makes them conscienceless persons with the laugh-disease, the lust-damagemaker disease, which can progress to the lustmurderer disease. For these sick persons it is a great pleasure to harm and hurt fromout the background, indirectly. Looking for power to make big damage from above is a speciality of the intelligent ones among them. Because you do not recognize them as seriously ill, because you do not see their sick brain corner from the outside, they often manage to climb high in power hierarchies. To kill is very beautiful thing for them, and genocide is the most beautiful thing for them. Whenever wars are organized by their leading staffs, they are immediately present secretly to cooperate. A big gang, 150 million heads on the globe, no compot, but a gamer community by birth, by inborn drives. Main headquarters: the headquarters of the bankers, the billionaires, City of London and BIS in Basel.

A good policeman and riot police officer also, woorking since 11 years in the police, is accusing MP Mark Rutte and the top of the police force of having selected sick people and placed them in the Mobile Unit (ME) to beat up peaceful demonstrators.

Read Police Statement No. 20 (one of 80 others, telling the same kind of stories), read/hear it at www.bpoc2020.nl/policeverhoren! Why did Rutte order to select sick people to let citizens beat up? Why do we sometimes see very strange manners of laughing at Rutte? Pictures here: www.Rutte-lacht.jaaaa.net. Has Rutte himself the defect gene and is therefore himself a victim of the laugh-disease, the lust-damagemaker disease?

Let's hear the policeman! Quotes:

“I have been working for the police as a police officer for 11 years now and

in recent years as a riot police officer. My motive to declare at the BPOC2020 (in addition to 80 others so far), is to make public the power abuse by parts of the corps. To disprove the lies told by the corps leaders and by, Prime Minister Rutte and Minister Grapperhaus. Because I've been there. On June 21 last year. And on March 14 this year. On June 21, 2020 as an ME-er and on March 14 as well. Both times on the Malieveld. It is really astonishing when I hear Rutte talk about 'snorted hooligans'. It was clear from the start that the Arrest Unit (AE) would come in action. to start the riots themselves. ,,,,, The peaceful demonstrators just walked into a goddamn trap! The door of the police van opened, and the AE ran into the crowd, slapping already. The AE already knew that in advance. We heard it from them afterwards. We were confronted with it on the spot. I hereby declare that the escalation was deliberate policy. I have seen protesters running for their lives. Also children. And then March 14. That was possibly even worse. Then we were informed in advance. We had to go in full force. Hit the head for a lot of blood. The dogs on them, anyway. The detainees were simply mistreated, already hin the bus. Those guys from the AE are just street fighters. They are selected for that. They love nothing more than rioting. And brag about it later at the desk. The fun such people have about 'rammed up wappies' is disgusting. ("the lust-damagemaker disease, result of the defect ppp-gene," says science). The whole force is full of those guys. The good officers say <We are sick> and stay at home (call in sick) ,.... And you can't talk to anyone in the force about it. Colleagues proudly send out videos of bloodied protesters, of innocent people being literally beaten up by the police. The police. Which should protect them. I have no words for it. The leadership and any agent who consciously participates in this should be indicted for manslaughter. Those people at the Binnenhof should also be charged. They lie to the people. I know because I was there. To hear them lie and cheat like that afterwards is baffling and totally unreal. When I saw this BPOC2020 initiative I was so happy. Finally something happens! Finally, all that filth is coming out. And the lies of Rutte, Grapperhaus and the corps leadership. Recently, someone from the leadership said: "we have to clear the corps of wappielovers". I think, conversely, we should remove the current corps leadership from the corps, and the colleagues who enjoy participating in the violence, and those people at the Binnenhof. I hope my statement contributes to that. "

As far the quotes, which we from BIG found accidentally now, at the beginning of August 2021, in the alternative newspaper <COMMON SENSE> /<GEZOND VERSTAND> no. 14 of April 14, 2021.

Did anything positively change in the meantime? No! The very clear story No. 20 lingers in small groups, does not reach most citizens. That's why we come now with our new BIG strategy. We flyer the cars and the bicycles in the cities with BIG-info-papers, with scientifically controlled content. So we bypass the lying MSM-Media. Via this way we reach many citizens. Via this way we invest in a healthy society. Depopulation by deep state must becomes a failure.

In the meantime, Rutte lied to parliament, but was removed from office. So we can conclude that probably the majority of the MPs belongs to the silent group with the defect gene, all Trojan Horses, and therefore always supports Rutte. As long as we citizens and scientists don't let them check with the TT-Test by honest police officers, the threat remains, their attempt goes on to kill us, via syringes, tricks and high-tech weaponry.

We fight for our lives, for the children, for the beautiful sides of the world.

On their sick side, the WW3 attackers are very weak. There we catch them quickly and effectively with the TT-Test. If they refuse to be tested, they are fired.

We also cut down giant costs for expensive energy, using TT, recovering multiply looted or blocked sources for nearly-free clean energy. With TT we end the lust games of deepstate-Attilas. They have been puuting through expensive fake solutions, big damage games, via infiltrating our power organs with Trojan Horses and damage politics from above.

If the group with the laughter disease tries to decimate their main opponents, the leaders of our BIG group, via "death by accident", it does not go unnoticed. On Oct 2, 2020, a Toyota Jeep made an attempt to kill our scientist Gunt Niessen. GN is also known as an inventor, with an innovative house building system, www.Leegoo-House.jaaaa.net . and with flying cloud windmills for a lot of almost-free clean energy, www.energybird.org with int. DSM innovation award.

The Toyota Jeep suddenly left the lane, hurtled along the pedestrian road towards GN, accelerating, with roaring engine. GN managed to jumped to the left, escaped. saved himself. Yet the intention was clear. GN filed a notice to

the police, with photos of the Toyota and demanded to test the driver on the TT- test, asking him, who had ordered the murder attack. Until today no response from the police organization. Hereby we demand to make work of the declaration, which we have put on the Internet; www.failure-of-an-accident.jaaaa.net, with numerous photos of location and Jeep.
